

MUHAMMAD TAHA BIN RASHID

Full Stack Developer

Karachi, Pakistan | 03152164699 | muhammadtahabinrashid@gmail.com | github.com/mtaharashid23 | mtahabinrashid.vercel.app

SUMMARY

Full Stack Developer with experience across the entire web development stack, from responsive, animation-rich frontends to reliable backend systems. Comfortable working with React and Vue.js on the frontend, and Laravel and Node.js on the backend, along with SQL databases such as MySQL and PostgreSQL. Specializes in building award-winning style websites — visually striking, high-performance, and user-friendly. Adapts quickly to whatever a project needs, from frontend design to backend architecture.

EXPERIENCE

Full Stack Developer — Stratrix Technologies

Aug 2026 – Present

Full-time · Karachi, Pakistan

- Work on full stack web development, building responsive frontends with React and Vue.js and backend systems with Laravel and Node.js.
